CEDAR SHOPPING CENTERS ANNOUNCES FIRST QUARTER RESULTS
— Increases in Revenues, Income and Funds From Operations —
— Maintains Strong Occupancy Levels —

Port Washington, New York — May 5, 2009 — Cedar Shopping Centers, Inc. (NYSE: CDR) today reported its financial results for the quarter ended March 31, 2009.

Highlights For The First Quarter Ended March 31, 2009

- Net income attributable to the Company's common shareholders was \$4.0 million (\$0.09 per share) as compared to \$3.1 million (\$0.07 per share) for the comparable quarter of 2008, an increase of 28.5%.
- Funds from Operations ("FFO") for the quarter increased 12.9% to \$15.5 million (\$0.33 per share/OP unit) as compared to \$13.7 million (\$0.30 per share/OP unit) for the comparable quarter of 2008.
- Revenues for the quarter increased 7.5% to \$46.9 million from \$43.6 million for the comparable quarter of 2008.
- Occupancy for the Company's stabilized portfolio remained approximately 95% and total portfolio occupancy, including development and redevelopment properties, remained approximately 92%.

Leo Ullman, Cedar's CEO, stated, "Our excellent financial results for the quarter ended March 31, 2009 reflect the continued strength of our Company's "bread and butter", primarily super-market-anchored shopping centers. We are executing well on our business plan and we continue to take steps to reinforce the defensive low-risk profile of our portfolio and our operations."

Financial and Operating Results

Net income and FFO for the first quarter of 2009, as compared to the corresponding quarter of 2008, include the following:

- An increase in expense of \$0.8 million (\$0.02 per share) related primarily to a canceled acquisition and required expensing of certain acquisition transaction costs under SFAS no. 141R.
- A reduction in expense of \$1.7 million (\$0.04 per share) for mark-to-market gains relating to stock-based compensation;
- A reduction in net interest expense of \$0.9 million (\$0.02 per share) exclusive of interest incurred for acquisitions;
- An increase in bad debt expense of \$0.4 million (\$0.01 per share).

A reconciliation of net income attributable to common shareholders to FFO is contained in the table accompanying this release.

Same Property Results

The Company owned 117 properties throughout both the first quarters of 2009 and 2008. Same property net operating income was \$30.3 million in the first quarter of 2009 as compared to \$31.3 million in the comparable quarter of 2008. Bad debt expense was 1.3% of total revenues in the first quarter of 2009 as compared to 0.3% in the comparable period of 2008 and 1.8% in the fourth quarter of 2008. Bad debt expense for the first quarter of 2008 reflected the benefit of bad debt recoveries resulting from billing system improvements. Expense recoveries were 78% of billable expenses in the three-month periods ended March 31, 2009 and 2008.

Leasing Activity

In the first quarter of 2009, the Company signed 38 renewal leases totaling approximately 200,000 square feet of gross leasable area (GLA) with an average increase in base rents of 3.5%. With respect to such renewals, the Company agreed to rent concessions for four tenants totaling 39,000 square feet; the remaining 34 renewal leases, totaling approximately 161,000 square feet, had average rent increases of 8.4%. The Company signed 19 new leases totaling approximately 95,000 square feet with an average base rent of \$12.72 per sq. ft. (excluding short-term leases at two mall redevelopment properties), and had 19 terminated leases totaling approximately 90,000 square feet with average base rent of \$12.12 per sq. ft.

Balance Sheet

Total assets were \$1.82 billion at March 31, 2009 and \$1.73 billion at December 31, 2008. The Company had total debt outstanding of \$1,095.3 million at March 31, 2009 as compared to \$1,013.5 million at December 31, 2008.

As previously announced, the Board of Directors suspended the Company's quarterly common dividend for 2009 following payment of a common dividend in the first quarter of 2009 of approximately \$5.3 million, or \$0.1125 per share/OP unit.

At March 31, 2009, the Company's fixed-rate debt was approximately 64% of total indebtedness with a weighted average remaining term of 6.1 years and a weighted average interest rate of 5.8%.

The Company has an announced development and redevelopment pipeline of approximately \$311 million that it expects to put into service largely during the second half of 2009 and

continuing into 2010. As of March 31, 2009, the Company had spent approximately \$219 million of the estimated total project costs of the announced pipeline. It expects to fund the remaining estimated balance of development costs principally with borrowings under its existing secured revolving credit facilities.

Acquisitions In The First Quarter

In January and February 2009, the Company acquired, through joint ventures in which it has 40% interests, two supermarket-anchored shopping centers totaling approximately 523,000 square feet of GLA located respectively in New London, Connecticut and California, Maryland. The aggregate purchase price for the properties was approximately \$72.5 million. Cedar's portion, constituting approximately \$7.6 million of the total equity above existing debt of approximately \$54.6 million, including transaction costs, was funded from the Company's stabilized property secured revolving credit facility.

Financial Guidance

While the Company is aware of its strong first quarter results, it reiterates its guidance with respect to FFO per share for 2009 in a range of \$0.85 to \$1.00 per share. In providing this guidance, it should be noted that there are several important variables which provide considerable uncertainty and lack of clear predictability of financial results for the balance of the year when compared to the results for 2008. They include the following, as previously set forth in our guidance:

- potentially lower revenues and increased bad debt expense from tenant lease terminations and renegotiated lease arrangements,
- increased interest costs and uncertainties as to the timing of completing the renewal of our existing secured revolving credit facility for our stabilized properties,
- potential write-offs of development and acquisition costs on projects which may be canceled, and
- lower scheduled amortization of intangible lease liabilities.

The foregoing guidance does not include the potential impact of increased mark-to-market costs of the Company's stock-based compensation.

Supplemental Information Package

The Company has issued "Supplemental Financial Information" for the period ended March 31, 2009 and has filed such information today as an exhibit to Form 8-K, which will also be available on the Company's website at www.cedarshoppingcenters.com.

About Cedar Shopping Centers

Cedar Shopping Centers, Inc. is a fully-integrated real estate investment trust which focuses primarily on ownership, operation, development and redevelopment of "bread and butter" supermarket-anchored shopping centers predominantly in coastal mid-Atlantic and New England states. The Company presently owns and operates approximately 12.7 million square feet of GLA at 122 shopping center properties, of which 75% are anchored by supermarkets and drugstores with average remaining lease terms of approximately 11 years. The Company's stabilized properties have an occupancy rate of approximately 95%. The Company has also announced a pipeline of approximately 12 substantially pre-leased primarily supermarket- and drugstore-anchored development properties and development parcels.

Forward-Looking Statements

Statements made or incorporated by reference in this Supplemental Financial Information include certain "forward-looking statements". Forward-looking statements include, without limitation, statements containing the words "anticipates", "believes", "expects", "intends", "future", and words of similar import which express the Company's beliefs, expectations or intentions regarding future performance or future events or trends. While forward-looking statements reflect good faith beliefs, expectations, or intentions, they are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements as a result of factors outside of the Company's control. Certain factors that might cause such differences include, but are not limited to, the following: real estate investment considerations, such as the effect of economic and other conditions in general and in the Company's market areas in particular; the financial viability of the Company's tenants; the continuing availability of acquisition, development and redevelopment opportunities, on favorable terms; the availability of equity and debt capital (including the availability of construction financing) in the public and private markets; the availability of suitable joint venture partners and potential purchasers of the Company's properties if offered for sale; changes in interest rates; the fact that returns from acquisition, development and redevelopment activities may not be at expected levels or at expected times; risks inherent in ongoing development and redevelopment projects including, but not limited to, cost overruns resulting from weather delays, changes in the nature and scope of development and redevelopment efforts, changes in governmental regulations relating thereto, and market factors involved in the pricing of material and labor; the need to renew leases or re-

let space upon the expiration or termination of current leases; and the financial flexibility to repay or refinance debt obligations when due and to fund tenant improvements and capital expenditures.

Non-GAAP Financial Measures — FFO

Funds From Operations (“FFO”) is a widely-recognized non-GAAP financial measure for REITs that the Company believes, when considered with financial statements determined in accordance with GAAP, is useful to investors in understanding financial performance and providing a relevant basis for comparison among REITs. In addition, FFO is useful to investors as it captures features particular to real estate performance by recognizing that real estate generally appreciates over time or maintains residual value to a much greater extent than do other depreciable assets. Investors should review FFO, along with GAAP net income, when trying to understand an equity REIT’s operating performance. The Company presents FFO because the Company considers it an important supplemental measure of its operating performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs. Among other things, the Company uses FFO or an adjusted FFO-based measure (1) as one of several criteria to determine performance-based bonuses for members of senior management, (2) in performance comparisons with other shopping center REITs, and (3) to measure compliance with certain financial covenants under the terms of the Company’s secured revolving credit facilities.

The Company computes FFO in accordance with the “White Paper” on FFO published by the National Association of Real Estate Investment Trusts (“NAREIT”), which defines FFO as net income attributable to common shareholders (determined in accordance with GAAP), excluding gains or losses from debt restructurings and sales of properties, plus real estate-related depreciation and amortization, and after adjustments for partnerships and joint ventures (which are computed to reflect FFO on the same basis).

FFO does not represent cash generated from operating activities and should not be considered as an alternative to net income attributable to common shareholders or to cash flow from operating activities. FFO is not indicative of cash available to fund ongoing cash needs, including the ability to make cash distributions. Although FFO is a measure used for comparability in assessing the performance of REITs, as the NAREIT White Paper only provides guidelines for computing FFO, the computation of FFO may vary from one company to another.

The following table sets forth the Company’s calculations of FFO for the three months ended March 31, 2009 and 2008:

Forward Looking Statements

Statements made or incorporated by reference in this Supplemental Financial Information include certain “forward-looking statements”. Forward-looking statements include, without limitation, statements containing the words “anticipates”, “believes”, “expects”, “intends”, “future”, and words of similar import which express the Company’s beliefs, expectations or intentions regarding future performance or future events or trends. While forward-looking statements reflect good faith beliefs, expectations, or intentions, they are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements as a result of factors outside of the Company’s control. Certain factors that might cause such differences include, but are not limited to, the following: real estate investment considerations, such as the effect of economic and other conditions in general and in the Company’s market areas in particular; the financial viability of the Company’s tenants; the continuing availability of acquisition, development and redevelopment opportunities, on favorable terms; the availability of equity and debt capital (including the availability of construction financing) in the public and private markets; the availability of suitable joint venture partners and potential purchasers of the Company’s properties if offered for sale; changes in interest rates; the fact that returns from acquisition, development and redevelopment activities may not be at expected levels or at expected times; risks inherent in ongoing development and redevelopment projects including, but not limited to, cost overruns resulting from weather delays, changes in the nature and scope of development and redevelopment efforts, changes in governmental regulations relating thereto, and market factors involved in the pricing of material and labor; the need to renew leases or re-let space upon the expiration or termination of current leases; and the financial flexibility to repay or refinance debt obligations when due and to fund tenant improvements and capital expenditures.

Basis of Presentation

The information contained in this Supplemental Financial Information is unaudited and does not purport to disclose all items required by accounting principles generally accepted in the United States (“GAAP”). The information contained herein should be read in conjunction with the Company’s Form 10-K for the year ended December 31, 2008 and Form 10-Q for the quarter ended March 31, 2009.

Cedar Shopping Centers Partnership, L.P. (the “Operating Partnership” or “OP”) is the entity through which the Company conducts substantially all of its business and owns (either directly or through subsidiaries) substantially all of its assets. At March 31, 2009, the Company owned a 95.7% economic interest in, and is the sole general partner of, the Operating Partnership. The limited partners’ interest in the Operating Partnership is evidenced by Operating Partnership Units (“OP Units”), which are economically equivalent to shares of the Company’s common stock and convertible into shares of the Company’s common stock at the option of the holders on a one-for-one basis. With respect to its 13 consolidated operating joint ventures, the Company has general partnership interests of 20% in nine properties, 40% in two properties, 50% in one property and 75% in one property. As the Company is the sole general partner and exercises substantial operating control over these entities, the Company has determined, pursuant to EITF 04-05, that such partnerships should be included in the

consolidated financial statements. The Company's three 60%-owned joint ventures for development projects in Limerick, Pottsgrove and Stroudsburg, Pennsylvania, are consolidated as they are deemed to be variable interest entities and the Company is the primary income or loss beneficiary in each case. In addition, the Company has a 76.3% interest in an unconsolidated joint venture which owns a single-tenant office property.

Effective January 1, 2009, the Company adopted SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51". SFAS 160 clarifies that a noncontrolling interest in a subsidiary (minority interests or limited partners' interest, in the case of the Company) is an ownership interest in a consolidated entity which should be reported as equity in the parent company's consolidated financial statements. As required by SFAS 160, the Company has reclassified, for all periods presented, the balances related to minority interests in consolidated joint ventures and limited partners' interest in the Operating Partnership into the consolidated equity accounts, as appropriate (the applicable portion of those OP Units as to which the holders have certain stock registration rights has remained in the mezzanine section of the consolidated balance sheet).

Use of Funds From Operations ("FFO") and Funds Available for Distribution ("FAD") as Non-GAAP Financial Measures

Funds From Operations ("FFO") and Funds Available for Distribution ("FAD") are widely-recognized non-GAAP financial measures for REITs that the Company believes, when considered with financial statements determined in accordance with GAAP, are useful to investors in understanding financial performance and providing a relevant basis for comparison among REITs. In addition, FFO and FAD are useful to investors as they capture features particular to real estate performance by recognizing that real estate generally appreciates over time or maintains residual value to a much greater extent than do other depreciable assets. Investors should review FFO and FAD, along with GAAP net income, when trying to understand an equity REIT's operating performance. The Company presents FFO and FAD because the Company considers them important supplemental measures of its operating performance and believes that they are frequently used by securities analysts, investors and other interested parties in the evaluation of REITs. Among other things, the Company uses FFO/FAD or an adjusted FFO/FAD-based measure (1) as a criterion to determine performance-based bonuses for members of senior management, (2) in performance comparisons with other shopping center REITs, and (3) to measure compliance with certain financial covenants under the terms of the Company's secured revolving credit facilities.

The Company computes FFO in accordance with the "White Paper" on FFO published by the National Association of Real Estate Investment Trusts ("NAREIT"), which defines FFO as net income attributable to the Company's common shareholders (determined in accordance with GAAP), excluding gains or losses from debt restructurings and sales of properties, plus real estate-related depreciation and amortization, and after adjustments for partnerships and joint ventures (which are computed to reflect FFO on the same basis). The Company calculates FAD by further adjusting FFO to exclude the pro rata share of straight-line rents, amortization of intangible lease liabilities, non-real estate amortization, and stock-based compensation included in operations, and to include routine capital expenditures and scheduled debt amortization payments.

FFO and FAD do not represent cash generated from operating activities and should not be considered as alternatives to net income attributable to the Company's common shareholders or to cash flow from operating activities. FFO and FAD are not indicative of cash available to fund ongoing cash needs, including the ability to make cash distributions. Although FFO and FAD are measures used for comparability in assessing the performance of REITs, as the NAREIT White Paper only provides guidelines for computing FFO, the computations of FFO and FAD may vary from one company to another.

- (a) New leases do not necessarily replace specific terminated leases within any quarterly period and, accordingly, the amounts shown may relate to properties with substantially lower rents, as in premises in low-density population areas, as compared to premises in major urban or suburban areas.
- (b) With the high occupancy levels for the Company's portfolio on an overall basis, leasing activity for the indicated square footage amounts represents a small percentage of the total portfolio.

(a) The chart does not include certain development properties previously listed on the Company's website/PowerPoint, including, without limitation, the Shore Mall property (Egg Harbor Township, NJ), Faxon Lumber Site (Williamsport, PA) and Trindle Plaza (Carlisle, PA). While development of these properties may be pursued, the plans are not yet sufficiently determined for status reporting purposes.

- (b) Estimated Yield is the estimated initial NOI on a cash basis at full occupancy divided by the estimated total project cost. Estimated cash NOI, constituting a forward-looking measure, does not include certain GAAP (non-cash) revenue measures, such as straight-line rents and amortization of intangible lease liabilities, the amounts of which are not determinable in the absence of executed leases with tenants in-place and paying rent. Management believes such measures would be generally immaterial.
- (c) Weighted average.

Consolidated Joint Venture Properties

Notes:

- (a) The Partners' and Cedar's respective shares of equity, net income and FFO, as presented, differ from amounts calculated using the stated ownership percentages because of (1) non-proportionate initial investments (per the respective joint venture agreements), and (2) the effect of preference returns to joint venture partners. Equity also includes net receivable/payable balances on open account between joint venture and wholly-owned entities.
- (b) Includes limited partners' share. Cedar's equity in the Homburg joint venture includes the excess of the joint venture partner's contribution over the underlying net book value of the properties owned prior to their contribution to the joint venture in December 2007.
- (c) Cedar has a 40% interest in two joint ventures formed for the acquisitions of New London Mall and San Souci Plaza in January and February 2009, respectively. The loss reflected during the three months ended March 31, 2009 represents the expensing of transaction costs in connection with the properties' acquisitions, in accordance with the adoption of SFAS 141R, which became effective January 1, 2009.
- (d) On January 3, 2008, Cedar entered into a joint venture agreement, retaining a 75% interest, for the redevelopment of the Columbia Mall property and adjacent land parcels.
- (e) Cedar has a 60% interest in a consolidated joint venture formed for the construction and development of an estimated 700,000 sq. ft. shopping center (Upland Square) in Pottsgrove, PA, and is to receive a preferred rate of return on its investment, if earned.
- (f) Cedar has a 60% interest in a consolidated joint venture formed for the construction and development of an estimated 137,000 sq. ft. shopping center (Crossroads II) in Stroudsburg, PA, and is to receive a preferred rate of return on its investment, if earned.
- (g) Cedar has a 60% interest in a consolidated joint venture formed for the acquisition, construction and development of an estimated 54,000 sq. ft. shopping center (Heritage Crossing) in Limerick, PA and is to receive a preferred rate of return on its investment, if earned.
- (h) On March 18, 2008, Cedar acquired Kimco's minority interests in the joint venture properties (Fairview Plaza, Halifax Plaza, Loyal Plaza and Newport Plaza). The amounts shown are for the periods prior to their becoming wholly-owned properties.
- (i) Non-operating income and expense consists principally of interest expense and amortization of deferred financing costs.
